

MAKER : TAGURA TOOLING SYSTEM

PRODUCTS : STK TOOLING SYSTEM

OBJECT MACHINE : MACHINING CENTER,NC LATHE,POPULAR MILLING MACHINE POPULAR LATHE,BORING MACHINE, DRILLING MACHINE etc.

[MAKER'S MERIT]

Tagura's company history is very long and they can produce for tooling of old type and new type and many kind of type.

Incompared with big makers,the quality is same level and products prices are better and delivery time is shorter,though brand image is poor. They are good at products of special make.

[MAKERS OF COMPETITOR IN JAPAN]

NIKKEN,BIG(DAISHOWA),MST CORPORATION,NS TOOL,YUKIWA
